

Arch2055 (Supervised Research in Archaeology) application process

Identify an appropriate staff member for the project you are interested in conducting

Contact that staff member and receive written confirmation that he or she is willing to consider a proposal

Submit to that member of staff a research proposal of at least 1 page plus references which includes the goals, rationale and feasibility of the specific project AND your transcript

3 possible outcomes

Proposal accepted

Proposal rejected

Prospective supervisor reworks proposal with student with aim of eventually accepting it

--- 4 weeks prior to semester ---
